

2020 NHMRC & MRFF INVESTIGATOR GRANT OUTCOMES FOR THE MRI SECTOR

FACTSHEET

KEY FINDINGS FROM AAMRI'S ANALYSIS OF 2020 INVESTIGATOR GRANT OUTCOMES FOR BOTH MEDICAL RESEARCH INSTITUTES AND THE BROADER HEALTH AND MEDICAL RESEARCH SECTOR.

Success Rates for 2020 NHMRC Investigator Grants

MRI SECTOR	14.8%
ALL SECTORS	13.3%

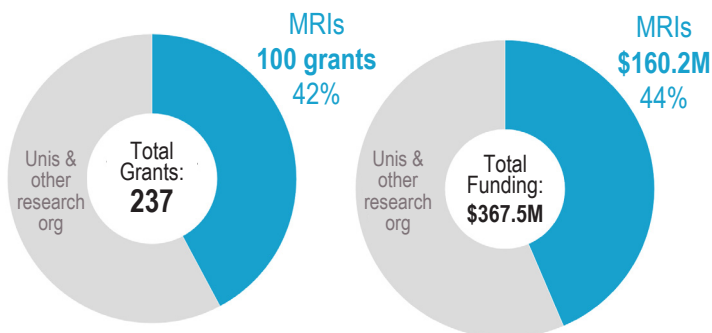

MRI data for 51 (of 56) institutes. Data source: AAMRI & NHMRC

In 2020, the success rate for medical research institutes (MRIs) was **higher than the national success rate in 2020.**

In 2020, MRI researchers were awarded:

100
NHMRC
Investigator
Grants

\$160.2M
in grant funding,
which is **44% total**
funding in 2020

MRI data for 51 (of 56) institutes. Data source: AAMRI & NHMRC

MRI researchers were awarded **about half the Leadership level grants & funding** (L1, L2, L3 grants)

49% Leadership grants to MRI researchers

56

Total: 115

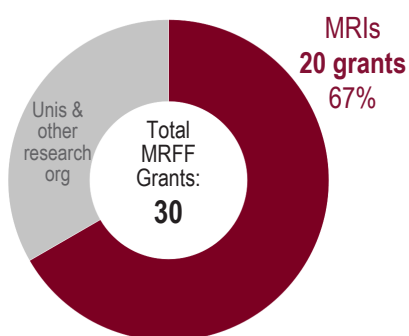

48% Leadership grants funding to MRI researchers

\$125,104,025

Total:

\$261,504,671

MRI data for 48 (of 56) institutes. Data source: AAMRI & NHMRC

Grants were awarded to researchers at 14 MRIs. Data source: AAMRI & Dept of Health

In the 2020 Medical Research Future Fund (MRFF) Investigator Grant Priority Round, MRI researchers were awarded:

20
MRFF
Investigator
Grants
(EL1 & EL2)

which is **two thirds** of the total grants & funding awarded

\$20.4M
in funding
where **\$12.7M** was awarded to **women researchers**
